

### Customer Spotlight:

"We needed a business partner that could not only provide an application to support our unique business needs, but who also could support us from an information technology perspective. The Technology One E-Commerce Store, proved to be the perfect solution for us."

*JT Marburger –  
CEO Incentive Marketing*

# Services

Technology One specializes in delivering an extensive assortment of products and services for customers from web site design and packaged e-commerce software to merchant processing.

### Consulting:

We help you to define your business needs and determine what is the best solution and technology for your specific needs. We can assist you with all facets of your project from defining requirements, managing the project, to providing information on hardware and software needs.

### E-Commerce Store:

Our E-Commerce Store provides a professional, feature rich, easy to administer online store solution. The storefront can be customized to your specific needs.

### Website Design:

We design professional, easy to navigate websites using state of the art technology. Technology One designs websites with your business needs in mind. We can build dynamic websites that interact with your own data.

### Website Hosting:

We provide hosting for your website either in a dedicated environment or a shared environment.

### Web Master Services:

We provide management of your entire website from updating content to providing statistics on site usage.

### E-Mail Marketing Campaigns:

We assist with all facets of your e-mail marketing campaign needs. Technology One can design the campaign template, manage the mailing list, execute the campaign and provide campaign result statistics.

### Graphic Design:

We design graphics for you or assist with creation and editing of existing graphics.

### Application Development:

We write custom web based and windows based applications for your specific industry.

### Merchant Processing:

We provide everything you need to accept credit cards for your business for your online store or your physical store.
